

DECLARATION OF INTERESTS BY MEMBERS OF THE EURIBOR STEERING COMMITTEE

EMMI as the administrator of the Euribor benchmark adopted the Euribor Conflicts of Interest Policy as to identify, prevent and manage any potential conflicts of interest and to protect the integrity of the process for the determination, calculation and publication of Euribor.

Following IOSCO Principle 3, on Conflicts of interest for Administrators, “Administrators should disclose conflicts of interest arising from the ownership structure or the control of the Administrator to its Stakeholders and any relevant Regulatory Authority in a timely manner.”

EMMI understands 'conflict of interest' to be defined as follows:

An actual conflict of interest refers to a situation where the impartiality and objectivity of a decision, opinion or recommendation of a body or a person is compromised by a personal 'interest held by or entrusted to a given individual.

A perceived conflict of interest refers to a situation where the impartiality and objectivity of a decision, opinion or recommendation of a body or a person might be perceived as being compromised by a personal interest held by or entrusted to a given individual, even if in fact there is no such undue influence.

A perceived conflict of interest constitutes a reputational risk to EMMI and the Euribor benchmark, as it can raise doubts about the process for the determination, calculation and publication of the Euribor benchmark. Therefore, a perceived conflict of interest should be treated as if it were an actual conflict of interest.

A conflict of interest situation may arise in particular as a result of a business activity, an economic interest, company ties, or any other relevant connection or shared interest. Potential conflict of interest situations which could arise among Euribor Steering Committee Members include, but are not limited to:

- Members from the Steering Committee who are directly or indirectly affiliated with panel banks could be perceived as influencing the Euribor benchmark definition, the Code of Conduct review, or the Code compliance decisions for inappropriate benefit of their own panel bank or of the panel banks as a group.
- Members from the Euribor Steering Committee who are directly or indirectly affiliated with panel banks could be perceived to have an interest not to challenge the daily or periodic submission due to payout of financial activities linked to the rate(s) of the Euribor benchmark.
- Independent or non-panel bank Steering Committee members could influence the development of the benchmark definition or the application of Code of Obligations for Panel Banks to benefit his/her organization or representative class.
- Members from the Steering Committee who are directly or indirectly affiliated with panel banks and independent or non-panel bank members may gain access to confidential information regarding the market which could benefit their own organization.

¹ Relevant personal interest may be of financial or non-financial nature and it may concern a personal or family relationship or professional affiliations (including additional employment or « outside » appointments or former employments or appointments) and other relevant outside activities.
