

Declaration of Interests

By members of the EURIBOR Oversight Committee

EMMI adopted a Conflicts of Interest Policy and Conflicts of Interest Procedure in order to identify, prevent and manage any actual or potential conflicts of

interest and to protect the integrity of the process for the determination, calculation and publication of the EURIBOR benchmark.

EMMI understands 'conflict of interest' to be defined as follows:

An actual conflict of interest refers to a situation where the impartiality and objectivity of a decision, opinion or recommendation of a body or a person is compromised by a personal interest held by or entrusted to a given individual.

A perceived conflict of interest refers to a situation where the impartiality and objectivity of a decision, opinion or recommendation of a body or a person might be perceived as being compromised by a personal interest held by or entrusted to a given individual, even if in fact there is no such undue influence.

An actual or a perceived conflict of interest constitutes a reputational risk to EMMI and the EURIBOR benchmark, as it can raise doubts about the process for the determination, calculation and publication of the EURIBOR benchmark. A perceived conflict of interest should be treated as if it were an actual conflict of interest.

A conflict of interest situation may arise in particular as a result of a business activity, an economic interest, company ties, or any other relevant connection or shared interest. Potential conflict of interest situations which could arise among EURIBOR Oversight Committee Members (hereafter 'Committee') include, but are not limited to:

- Members from the Committee, who are directly or indirectly affiliated with panel banks, could be perceived to influence the EURIBOR benchmark definition, the Code of Conduct review, or the Code's compliance decisions for the benefit of their own panel bank or of the panel banks as a group.
- Members from the Committee, who are directly or indirectly affiliated with panel banks, could be perceived to have an interest not to challenge daily or periodic submissions as they might benefit from financial payments linked to the rate(s) of the EURIBOR benchmark.
- Independent or non-panel bank Committee members could influence the development of the EURIBOR benchmark definition or the application of the Code of Obligations for Panel Banks for the benefit of their organization or representative class.
- Members from the Committee, who are directly or indirectly affiliated with panel banks, and independent or non-panel bank members may gain access to confidential market information, that could benefit their own organization.

¹ A relevant personal interest may be of a financial or non-financial nature and may concern a personal or family relationship (spouse, legal partner, parents, or children) or a professional affiliation (including additional employment or « outside » appointments or former employments or appointments) or other relevant outside activities.
